

Setting Up a Contact Form

Contact Form

Under **Contact Form Settings**, you can update:

Form label - This should be a brief label. It will be included as part of the subject line in emails.

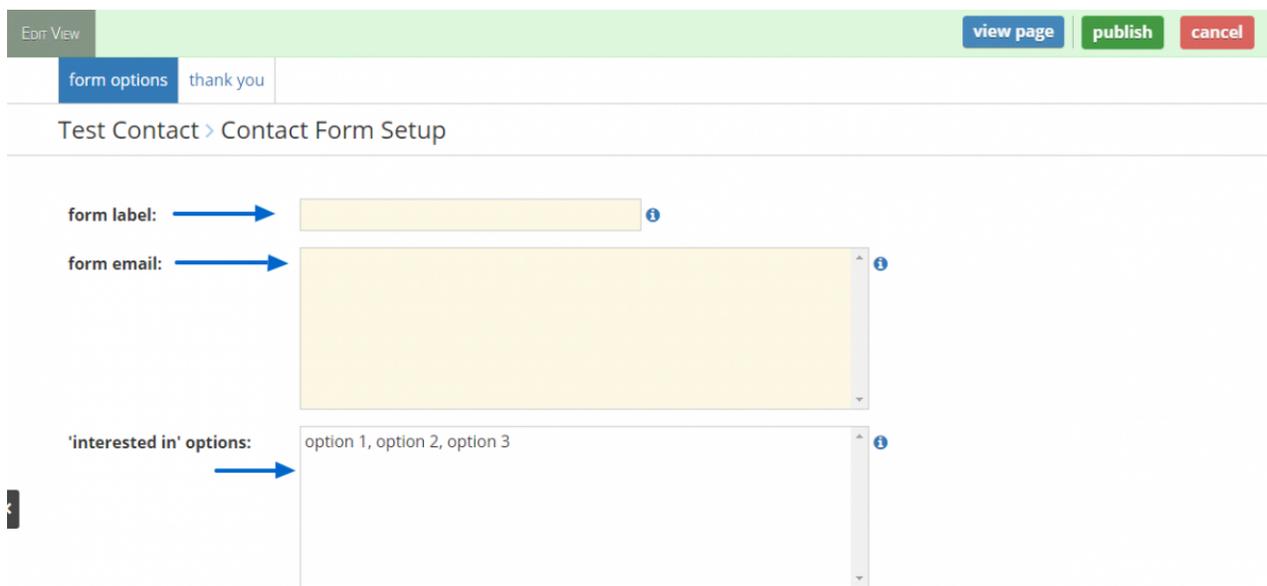

Form email - You can list one or multiple email addresses here. The emails listed are who will receive the contact form submissions. Separate the emails with a comma

'Interested In' Options - These are options a user can select from a dropdown. Separate the options with a comma

Under **Thank You:**

The top "Thank You" box is where you can add a message that users will see on their screen when they submit the contact fomr

If you select **yes** for "send auto response email," you'll get a text box where you can enter in a message that is emailed to the user after they submit the contact form
