

Editing Galleries

To Create a Gallery Block

Click **Insert a Block**

If there are multiple block options, click **Gallery** at the top of the text block

Add the question to the top box

Select a layout for that block

Each block you add can have a different layout, allowing you to create a custom gallery

Click **upload image** to upload your image

You'll find the minimum image sizes next to the block name at the top

Fill in the image caption (optional) and image alt (required)

Click **Save Block**

How to Add Images to a Gallery Page

If your page has categories, add categories according to *these directions*

Click **Upload New Images** and find the images you wish to upload

You can upload multiple images at the same time on this page

Give the images a caption if you want to

Give the images an image alt

You can arrange the images by clicking the 6 dots in the upper left corner and dragging and dropping them in the order you want

When you're done, click **Publish** to save

Edit View view page publish preview cancel

Test Gallery

upload new image(s) (400 x 400)

The screenshot displays the 'Test Gallery' editing interface. At the top, there is a navigation bar with 'Edit View' and buttons for 'view page', 'publish', 'preview', and 'cancel'. Below this, there are tabs for 'images' and 'seo'. The main heading is 'Test Gallery'. A blue arrow points from the 'images' tab to a blue button labeled 'upload new image(s)' with '(400 x 400)' next to it. Below the button, there are two image cards. Each card has a blue header with a menu icon and a trash icon. The main image area contains a blue gear graphic and the text 'ST IMAGE' and 'width image'. Below the image is a blue 'change image' button. At the bottom of each card are two text input fields: 'caption on popup' and 'image alt' (highlighted in yellow). A small black arrow points to the left of the first card.
